- ISzT may decide, after receiving the tenders, to declare the procurement procedure unsuccessful without announcing the results and to close the procedure.
- ISzT reserves the right to conclude a contract with the tenderer who, in its opinion, has submitted the most favorable valid tender within the framework of the tender and the tenders submitted. The announcement of the results does not entitle the successful tenderer to conclude a contract.
- The tenderer may classify parts or all of its submitted tender as business secrets by means of an express statement. In this case, ISzT shall not disclose the classified information, unless otherwise required by law.
